

## VP600

### FLEET TRACKING DEVICE

The VP600 is our high end device, designed as a universal solution for 24/7 web-based visibility and continuous tracking. This real-time device functions on our 30 sec., 1, 2 and 5 minute rate plans.

The unit is engineered and built with the quality components needed to meet the high reliability requirements of always-on tracking. The VP600 is a highly flexible fleet device that supports up to 4 inputs as well as remote door unlock and starter disable features.

Designed to operate in extreme environmental conditions, the VP600 is supported by our optional 3-year extended manufacturer's warranty.

#### Target Markets:

- Most general businesses, plus those that require I/O input/starter disable and/or door unlock
- Areas susceptible to weak cell coverage, thanks to the unit's extended memory capacity

#### Product Differentiators:

- Starter disable and/or remote door unlock
- PTO input
- Extended store-and-forward capacity
- Antenna can be positioned in various locations on the windshield and/or covertly installed, depending on vehicle type

- Capable of supporting remote door unlock and starter disable
- I/O Capabilities: 4 inputs and 2 outputs
- Voltage monitoring and low-battery notification
- Over-the-air firmware upgrade capability
- GSM Quad-band (800/900/1800/1900 MHz)
